THE GRAND ARMY BOYS.

Wheeling Will Send a Big Delegation to Pittsburgh

SIX HUNDRED OF THE OLD SOLDIERS

From Wheeling and the Surrounding Towns Are Expected to Attend, Thus Breaking Even the Record at the Columbus Encampment-The Time Selected by the Pittsburgh People Satisfactory.

This year's national encampment of the Grand Army of the Republic takes place in Pittsburgh, next September, as is generally known among the soldier boys and others as well. From a Wheeling standpoint the selection of a location is first class, as the expense of attending will be much less than has been the case at any of the preceding encampments. The only encampment at which the posts of Wheeling and vicinity were numerously represented was the one at Columbus, Ohio's capi-tal, several years ago, when about two hundred old soldiers from this section attended. Pittsburgh being even nearer Wheeling, the veterans making preparations to be on hand numerously, and it is expected that at least five hundred and probably six hundred G. A. R. boys will go up, dis-tributed about as follows:

Squire Joseph A. Arkle, of the South Side says that the date selected for the encampment, the week commencing September 10, is about the best that could have been decided upon, for the reason that the army of pensioners will have received their quarterly pension stipend a day or two before and will be fixed financially to attend the Pittsburgh gathering, which is expected to be the greatest in the history of the Grand Army, The dates at Indianapolis last year, were badly selected, and many of the soldiers did not attend on account of being "not in funds."

The annual encampment of the West Virginia Department, Grand Army of the Republic, takes place at Parkersburg April 24, and preparations are being made for a largely attended affair. Wheeling's old soldiers will be largely represented.

A SPLENDID RECORD.

Melville E. Stone's Work for the Asso-ciated Press a Magnificent Triumph, Spaingpield, Mass., March 9.—The Springfield Union to-morrow morning will say: The history of newspapers in this

country or any other country does not record so great an achievement as that of Melville E. Stone, the general manager of the Associated Press, who in six months established a news gathering

ager of the Associated Press, who in six months established a news gathering organization greater than any that had ever exiated.

Mr. Stone sails for Europe to-day for a much needed vacation. When he was appointed general manager of the Associated Press that organization had not a single paper in the east, and in the west such strong papers as the Chicago Heraid and Tribnus, Louisville Courier-Journal and many others were with the United Press. To-day every paper in the west that the Associated Press will permit to receive a service, is a member or client of the Associated Press and in the east a large majority of the leading papers have left the United Press. New England is the weakest point and in New England is the weakest point and in New England the Associated Press has one-third of the papers. The record is a magnificent one, and Mr. Stone has earned the rest he is about to take. So well has his work been done that there is little doubt in the mind of any one that on his return, the last paper in the east that can be admitted will long before have joined the Associated Press.

A TERRIBLE TRAGEDY.

The Murder of Two Horse Traders and the Crime Fixed on Their Cook.

Pauls, Aux., March 9 .- News reached here yesterday of a terrible double murder committed four miles south of Booneville, this county. The crime was evidently committed Sunday night, the 25th ult. Two horse traders and their cook, a young man about twenty-five years of age, went into camp in an out-house near Booneville on the date named. That night pistol shots were heard and the next day were heard and the next day the young man was seen and the two horse traders were missing. That evening the house they had camped in burned down. It was noticed that the young man was in possession of all the horses and cattle that belonged to the traders. Citizens began to suspect foul play, and went to where the house was burned, and in the ashes the bones of two human beings were found. The young man was arrested on the charge of murder.

Stanton Abbott Flunks.

MINNEAPOLIS, MINN., March 9 .- Stanton Abbott, the celebrated English pugilist, has flunked out of his finish pugnist, has flunked out of his finish fight with Bobby Dobbs, the colored pug, scheduled for the Twin City Athletic Club next Monday evening. Abbott writes to the Tribune that he did not know Dobbs was a colored man when he signed the articles and that he is informed that Dobbs cannot weigh in at less than 137 pounds and that therefore he does not propose to meet him, being out of his class.

THE TUNNEL PROJECT.

"Observer" Endorses the Position of the Trades Assembly. To the Editor of the Intelligencer.

Siz:-Every fair minded citizen must endorse the trades and labor assembly for its progressive step in this, the time of need, in trying to provide a plan to give work to the unemployed, which leaves every deliar in the community, to be expended here, and at the same time makes a valuable improvement

for the citizens and county. The tunneling of the hill at Ninth or Tenth street brings the city cemetery within a few hundred yards of the Second ward market. It is necessary to the poor people of our city that every opportunity be given them to lessen the cost of funerals and visiting the graves, for there is no one who does not wish to visit and put a few flowers on the grave of a departed relative or friend. We owe it to the most humble citizen, and that at as small a cost as possible, to afford him the privileze of paying respect to the dead.

I will any nothing of the advantage to the people living around the hill, who do their shopping on Eleventh and Main streets; and as the city progresses, time is money to the people. Rapid within a few hundred yards of the Sec-

Main streets; and as the city progresses, time is money to the people. Rapid transit and short routes demonstrate this in every city. We have the two bridges, which cost the city \$132,000, to shorten the distance \$00 feet from Main to Market street; then we have the peninsula bridges to shorten the distance to the cemetery and out the pike. I know of citizens who have been paying for years for the nevillees of crossing a grow of citizens who have been paying for years for the privilege of crossing a private bridge that spans the creek to save the distance of 400 yards of walk. I could go on and enumerate other instances. We have four tunnels in the city limits now; put through the Tenth street tunnel and we will have the historical city of hills, bridges and tunnels.

MARTIN'S PERRY.

Haps and Mishaps in the Thriving City Across the River. If the Republicans do not attend the

If the Republicans do not attend the primaries this afternoon it will not be because the candidates have been inactive. Never in the history of Martin's Ferry has there been such a hustle for offices, and judging from the general interest an immense vote will be polled. The candidates are more numerous than ever before, and the people can scarcely wait until the polls open. The voting will be from 2 to 6 o'clock. The work of distributing ballots has been going on ever since Thursday morning. The nomination on the Republican ticket is equivalent to election and this is why so mony are after the offices. The Domocrats will nominate to-night between 7 and 9.

A. W. Kerr returned yesterday from a three days' stay at Charlestown, W. Va., and Washington, D. C. He says he went to the former place on Dusiness and did not visit Washington in the interest of any candidate for the Martin's Ferry postoffice. He saw Congressman Pearson and talked with him, but did not ask him to ampoint anybody. Mr. Pearson and talked with him, but did not ask him to appoint anybody. Mr. Kerr says Congressman Pearson has not examined the papers and recommenda-tions in the postoffice case, and that he will name the postmaster at Stauben-ville before he takes up the Martin's Ferry office. In Kerr's opinion the question of a postmaster for Martin's Ferry would not be considered for a week or so.

FROM WINTER TO SPRING

It May Bo Delightful But Often it

le Dangerous.

SOME OF THE PITFALLS.

One of the Best Physicians in the Land Gives Some Timely Advice to Those Who Are Making the Change.

"Foel chilly, ch? Been out in the old too much, your blood does not circulate freely, your system is run down.
I thought so!

"Almost everybody is that way just now-inclined to be melanchely and discouraged-certainly, everybody is that way just at the change from winter to spring. Do you understand? There has been a bracing-up of the forces to meet the cold, there is a decided letting down now. Careful! If you do not watch that letting down, you will go down with it."

The physician who made the above

sensible and honest remarks, knew what he was talking about. There is senable and honest remarks, knew what he was talking about. There is great danger in the change from winter to spring; danger not to the head, not to the langs, not to the stomach, but to the kidneys. You may not realize this, but it is true. Few people realize things until they are face to face with them. There is no question that if you feel this way, your kidneys are out of order and you have got to take the best known remedy for these great organs that control the body or suffer the consequences. The remedy in question—for there is nothing to dispute its claim—is Warner's Safe Cure. It is the only known preparation which will enable men and women to pass from the dangerous stage of winter to the pleasant stage of spring and tilk keep their health, their vitality, and their kidneys unimpaired.

After hearing the cause of these feel. unimpaired.
After hearing the cause of these feel-

After hearing the cause of these feelings, you will not wonder that you are cold, that you feel blue, that you have been trying to get warmed, altogether from the outside. You want something in your system that will give natural warmth, natural health, natural strength, and that will keep the blood circulating. You should realize that Warner's Safe Cure is the only thing that will accomplish this. It will stop your feverishness, it will check your naxiety, dispel your miserable feelings and all your distressing symptoms.

If you have the slightest doubts of the truth of the above, you have only to see what in Safe Care has done for others and you will find your doubts quickly disappearing. It has done, and it will do, what nothing has ever done before, and if you are a wise person you will be warned in time, and accept the hints which are above given.
